## **Acknowledgment**

Prima facie, we are grateful to ALLAH (الله) SWT for the good health and wellbeing that were necessary to complete this thesis.

We place on record, our sincere gratitude to Dr. Abdul Aziz Bhatti, Dean of the Faculty for School of science and technology UMT, for the continuous encouragement.

We are much obliged to Dr. Tahir Aijaz , Head of Department for the Faculty of School of Science and Technology UMT, for providing us with all the necessary facilities for this project.

We are also grateful to Ms.Tahreem Yasir, our project advisor and lecturer, in the School of Science and Technology UMT, We are extremely thankful and indebted to her for sharing expertise, sincere & valuable guidance and encouragement extended to us.

We take this opportunity to express gratitude to all of the Department faculty members for their help and support. We also thank our parents for the unceasing encouragement, support and attention. We are also grateful to our partners for this entire venture.

We also want to place on record, our sense of gratitude to one and all, who directly or indirectly, have lent their hand in this venture.

**Project Title: 1Click**

**Objective:**

As we are living in machine age and everyone is busy in their work. Many of us face difficulty in finding reliable Photographer, Cinematographer, Marriage Hall, Event Planner or Cater. By considering all these problems, we are making a web based consumer portal that will help users to find out different type of Marriage Halls, Cater, Event Planner, Photographer, Cinematographer in their locality.

**Undertaken by:**

<b>Ayaz Ishaq</b>	<b>110165-103</b>
<b>Junaid Afzal</b>	<b>110165-113</b>
<b>Ayaz Qaiser</b>	<b>110165-120</b>

**Supervised by:** Ms, Tahreem Yasir

**Starting Date:** 15 December, 2014

**Completion Date:** 10 August, 2015

**Tools Used:** MS Project, MS Visio, Corel Draw, Wamp Server (MySQL, Apache Server and PHP) and Sublime

**Operating System:** Windows, Linux, MAC.

**Documentation:**

## **Abstract**

Ranking or evaluation of different service providers is not available and it's difficult to visit physically or to find the availability of service providers. Also its difficult to maintain booking of any marriage hall. Only one portal exists that managed only few service provider.

By considering all these problems, we are developing a web based consumer portal that will help users to find out different type of Marriage Halls, Caterers, Event Planners, Photographers, and Cinematographers in their area.

Our system will allow registered users to login, make reviews and ratings on their desired service provider page. Also it will allow registered and non-registered user to search and filter, service providers like marriage halls or event managers.

Last but not least our system allows service provider to login and create, delete, update and view operations on services that they provide using our portal.

## REVISION CHART

---

<b>Version</b>	<b>Primary Author(s)</b>	<b>Description of Version</b>
<i>Draft</i>	Ayaz Qaiser	Initial draft created for distribution and review comments
<i>Preliminary</i>	Ayaz Ishaq	Second draft incorporating initial review comments, distributed for final review
<i>Final</i>	Muhammad Taimur Adil	First complete draft, which is placed under change control
<i>Revision 1</i>	Junaid Afzal	Revised draft, revised according to the change control process and maintained under change control
<i>Revision 2</i>	Ms. Tahreem Yasir	Revised draft, revised according to the change control process and maintained under change control

# 1. INTRODUCTION

---

1click.com.pk is established to provide online services in event management related activities. The basic purpose of 1click is to promote service providers (SP) to increase their market share and take a step forward towards success.

## 1.1 Project Overview

As we are living in machine age and everyone is busy in their work. Many of us face difficulties finding a reliable service provider (Photographer, Cinematographer, Marriage Halls, Event Planner or Caterers).

By considering all these problems, we are making a web based consumer portal that will help users to find out different type of Marriage Halls, Caterers, Event Planners, Photographers, Cinematographers in their locality. This app will not only entertain the person who is new to a place but we will also provide information to people who currently reside in the area.

Another problem which is very common these days is to insure that service providers are good enough. Considering this problem this site will provide reviews and rating conducted through users those have used the services of that particular service provider. Moreover this app will compare rates of different service providers.

## 1.2 Problem Statement

We face many problems when we organize or plan an event; some of these problems are listed below:

- a) Difficulty for finding a good photographer, caterer, cinematographer, event planner.
- b) Ranking of good service provider not available
- c) Difficult to visit physically
- d) Difficult to find availability
- e) Difficult to maintain booking status of each hall
- f) Fake user Accounts
