WISDOM OASIS

Nature

Knowledge

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

I start with the holy name of ALLAH who is the most gracious and merciful.

Abstract:

**Curiosity Is The Spark Behind The Spark Of
Every Great Idea. The Future Belongs To
The Curious.**

**I Have No Special Talents. I Am Only
Passionately Curious**

-Albert Einstein

Curiosity Is The Lust Of The Mind

-Thomas Hobbes

Dedication:

I dedicate all my efforts and achievement to my parents, who brought me in this world and made me capable to reaching this spot, where I can do anything necessary for living. Accept this as a small token of thanks. May God help me, make you both proud.

Acknowledgment

My greatest respect and gratitude are due for my teachers, from them I got confidence, support, guidance, and on top of all their critique, the questions they roused again and again which forced me to search for answers and these answers lead me to the peaks of knowing.

To every person, who co-operated in my research. Who answered my endless questions, while surveying and field visits. To the people whom I interview while my research. All the random people, who spared time and filled my research questionnaire,

Last but not the least, thank you mama, for all the patience and tolerance you showered during this year, for ignoring my attitude flows, for the messy room and mid night hungers.

INTRODUCTION

CHAPTER 1: INTRODUCTION

PROJECT TITLE:

WISDOM OASIS

WISDOM = The body of knowledge and experience that develops within a specified society or period

OASIS =A fertile spot in a desert, where water is found

WISDOM OASIS would be a place where knowledge seaker will find their home. Their wild curiosities find a direction. A library facility which would change the perspective of old fashioned dull quite boring reading area perspective in to a interactive relaxing social hub. Where everyone finds their accustomed nook. it would invite all type of people, from different age groups and backgrounds. Once someone enters it, the magic of this place would capture them in its enchantment which will attract them back again and again.

THESIS STATEMENT:

Problem: 1

A library is the most beautiful place for a soul full person. It's sad that we have so less libraries in our country. The world is arguing on the topic that the libraries are no more important. As the electronic media is taking over and the trend of going to the library is dying. People do not need proper place to study. On contrary to that on ground reality is different. People are accessing the libraries more frequently even with the improving technology the library is still very important. People visit library regularly, not only to read books but also they prefer using this dedicated place for their online research and experimental studies. The use of library is becoming more versatile day by day
