## ACKNOWLEDGEMENT

Foremost, I would like to express my sincere gratitude to my Supervisor **Assistant Professor Ayesha Khan** for the continuous support of my graduation study and research, for his patience, motivation, enthusiasm, and immense knowledge. Her guidance helped me in all the time of research and writing of this report. I could not have imagined having a better advisor and mentor for my graduation study.

Besides my advisor, I would like to thank my **Family** for supporting me spiritually throughout my life. I am highly indebted to my **Sisters** and **Brother** who always remained behind me in motivation and cognition.

Last but not the least; I thank my friend: **Bushra Khalid, Ghosia Khalid, and Samina Sarwar** for the stimulating discussions, for the sleepless nights we were working together before deadlines, and for all the fun we have had in the last two years.

## **DEDICATION**

As well as everything that I do, I would be honor to dedicate this Final work to my parents. They gave the tools and values necessary to be where I am standing today. I will never finish to thank my father and my mother for all the opportunities that they have offer and gave me, for all the teachings that they have told me and for every advise that come out of their mouth. I am so graceful with them for trusting me that I would do a Good job in the university, and letting me come to achieve a higher education.

## **DECLARATION**

I hereby declare that the project work entitled “Life after Death: Akhirah” submitted to the respected teachers, is a record of an original work and not submitted by any other student or researcher in any other foundation.

## **ABSTRACT**

What is the determination of our in this world is? Only the mankind destination is this world life and grave? Is there is any Day of Judgment, which assign as never ended life? As human are open in their choice to do whatever they want, they cannot conquer end result conferring to their aspiration but in the day of Judgment human are waged as what they sort out in in this world. We are living in the Muslim state, but why the Muslim are in addiction of corruption and evil deeds? Why Muslim are not sophisticated about Day of Judgment when they are performing virtuous or immoral deed?

For the account of all clouds questions, Campaigner will use frequent techniques to generate combination of words, symbols and images to create a visual representation of ideas as well as messages. Along with written work an awareness campaign is to be designed by using some creative and attractive visual effects with combination of strong and attention seeking captions and colors. It is also trying to introduce some unique skills and techniques to present the work that has never been used before. Campaign will be image-based designs in which techniques may include; identity (logos and branding), print advertisements (News Ad and Magazine Ad along with Teaser), posters, Stationary, Brochure, billboards, website, Table calendar, Wall calendar, Show Card, Give away items and graphics. Campaigner would also use a combination of typography, visual arts and page layout techniques to produce a final result. In Sha Allah it will prove an effective, informative and thought provoking for every individual who want a successful life in this world and here after.

## CHAPTER 1

### INTRODUCTION

In this Universe, many realities are undetectable to human. The first question that ascends in the human mind is to explore, what is the universe? In every era this query has becoming a problem that always remains under case. Not only the search of human about universe is incomplete, but also the exploration of earth is shortened. That's exploring not only difficult for human, but also become a challenge. There are so many of mysterious in the earth is unsolved. But among all mysteries of the world, "earth and universe" itself a big secret for human. From the time of stone era till to the word of technology human bounce numerous theories and go on in quest of that; how this universe come in to existence.

If some past and present aspects of science are being observed, several of the following theories are important.

1. Classical Mechanics  
Theory of Relativity
2. Quantum Mechanics  
Wave Theory  
Big Bang Theory  
String Theory  
Space Time Theory

After the assortment of research, now science makes the opinion that: In the universe\* there are about 100, 000, 000, 000 galaxies. Our stars and its planets are a little measure of Milky Way galaxy, i.e. our solar system is 3% part of universe.

Human has not only a relation but also keen faith on science. But this is a reality that before the introduction of science, human relation was well-built with religions which is still firm and continue. Whereas human innovations and discoveries are at the peak but they are unsuccessful to reject the reality of religion. Some of the most ancient religions are: "Judaism, Hinduism, Zoroastrianism, Buddhism, Taoism, Jainism, Christianity and Islam". In which the main two and largest religion of the world are, "Christianity and Islam".

There are many aspect of the earth which is superior to human mind. As much as exploration has been done, so many new subjects and amazing phases are arising .It is not only puzzlement for the science that how universe came in to existence but it is also a mystification that what is the life time of earth in which we are existing. Contrary to the science different religions discuss the existence of universe in their own way in which Islam and Christianity are prominent. If Islam is observed, the theory about universe's beginning and its ending is defined very evidently which is
