Abdul Haseeb Shujja

DEDICATION

DEDICATED TO OUR RESPECTED PARENTS AND TEACHERS WHOSE UTMOST LOVE, CARE AND STRUGGLE AGAINST ALL ODDS BROUGHT US TO THIS HEIGHT OF KNOWLEDGE AND ENCOURAGED US TO COMPLETE THIS DEGREE AND WERE MAJOR DRIVING FORCE BEHIND OUR ALL EFFORTS WITH THE BLESSINGS OF ALMIGHTY ALLAH

ACKNOWLEDGEMENT

We are thankful to **ALMIGHTY ALLAH** who gave us courage and passion and prayers of our parents and teachers to achieve the goal that was necessary for the degree. Although it was not an easy task, with the useful direction, kind supervision and co-operation of Mr. Abdul HaseebShujja, it became easy for us to complete the research work. We are really grateful to our Project Supervisor because of his profound interest and encouragement throughout the project work.

We would like to acknowledge **Prof. Dr.NaveedYazdani**, Director, School of Professional Advancement, UMT Lahore, for encouraging and providing us all the facilities throughout the project.

Last but not least, we extend our sincere appreciativeness and thankfulness to our Family for their incredible encouragement. Their love and support means a lot to us.

Team VMS

Volunteer Management System

SESSION (2014-2016)

This project is submitted to the School of Professional Advancement, University of Management & Technology Lahore, for the partial fulfillment of the requirement for Master Degree in Information & Communication Technology.

ABSTRACT

To survive in better way we need to support each other all the time. Maybe the survival isn't possible without supporting each other.

To survive in this world in better way number of organizations are working for the humanity and number of people are become the part of them those are called "Volunteer".

In past major problem was that there is no source which allows volunteer to be the part of organization those are working for the poor humanity. Internet allows us to develop a way or application which allows organizations and volunteers to interact with each other across the globe.

Currently we are going to develop an online system to minimize gap between organizations and volunteers to serve the humanity around the world. Number of disaster occurring in Pakistan, in shape of earthquake, flood, drought, famines etc.. Number of non-profit organizations working but they can't manage their volunteers. Basically organizations are not much familiar and have not much technical sources those are familiar with latest tools and technology to develop online solution / application to find and manage volunteers. However hundred and thousands of people interested to be the part of these organizations specially students and professionals.

This software designed for the non-profit organizations to manage their volunteer's online system (database) and offer them to be the part of their team in case of disasters and other relief activities.

People i.e. students, professionals, doctors, teachers and other can apply for their services through online 'VMS' system to become a part of any non-profit organizations. Actually it's a platform for organizations and volunteers to come forth on a single way and manage their activities in good manner to serve the humanity without any restriction or without taking extra time.

REVISION CHART (OPTIONAL)

Version	Primary Author(s)	Description of Version	Date Completed
Draft	KhizraTabassum	Initial draft created for distribution and review comments	Oct. 2015
Preliminary	Hafiz Jawad	Second draft incorporating initial review comments, distributed for final review	14 Nov. 2015
Final	KhizraTabassum	First complete draft, which is placed under change control	20 Nov. 2015
Revision 1	YasirMahmood	Revised draft, revised according to the change control process and maintained under change control	12 Dec 2015
Revision 2	KhizraTabassum	Revised draft, revised according to the change control process and maintained under change control	10 January 2016
Revision 3	KhizraTabassum	Revised draft, revised according to the change control process and maintained under change control	02February 2016
Revision 4	SajidHussain	Revised draft, revised according to the change control process and maintained under change control	04 February 2016
Revision 5	KhizraTabassum	Revised draft, revised according to the change control process and maintained under change control	05 February 2016
Revision 6	KhizraTabassum	Revised draft, revised according to the change control process and maintained under change control	08 February 2016
Revision 7	YasirMahmood	Revised draft according to project supervisor advice	7 March 2016
Revision 8	KhizraTabassum	Revised draft according to project supervisor advice	20April 2016
Revision 8	Hafiz Jawad	Revised draft according to project supervisor advice	5 May 2016
Revision 8	YasirMahmood	Revised draft according to project supervisor advice	13 June 2016
Revision 8	KhizraTabassum	Revised draft according to project supervisor advice	10 July 2016

INTRODUCTION

1. INTRODUCTION

1.1 Project Overview

Number of natural and manmade disaster occurring in Pakistan, according to National Disaster Management Authority (NDMA) every year about thousands of people died due to different disasters. Like Natural disaster (Earthquake, Flood, Drought, Famine etc...) Man Made Disaster (Bomb Blast, Road Accidents, Terrorism etc...). In the areas where disaster occurs there is much need of people who serve for humanity. But now a-days there are lack of such people because there is no such platform who manages volunteers and organization together. This system allows doing something for poor and deserving humanity.

Non Profit organizations try to reach at poor and deserving peoples' door step or try to support them in time of need. Main issue of organizations is to manage volunteers through a proper system. Most of the time many peoples wants to join organizations and be the part of their activities but due to unavailability of such system. They did not make contact with them and they are not able to support them in this regards.

Basically organization has not any system which manages volunteers to keep in touch with them anytime when they want. Number of professionals and students wants to be the part of social sector and wants to help the needed humanity. But there is no such platform which offers them to be the part of organization and keep in touch all the time.
