# Acknowledgement

I would like to express my intense sense of respect to my program director **Syed Farooq Ali** for his guidance and steady help during the project. His willingness to give his time so generously has been very much appreciated. I am also thankful to my advisor **Miss Emmen Farooq** for her in depth knowledge on a broad spectrum of website development and designing has been extremely beneficial for me. My acknowledgement also goes to all the technicians and office staff of school of science and technology for their co-operations.

Last but not the least, my deepest gratitude goes to my parents for their love, support and suffering during our studies and project. I wouldn't be able to reach this point without their prayers and encouragement.

Thank you very much.

**Project title:**

*Illusion* (online shopping website)

**Objective:**

System will be able of maintaining the detail of different customers, product, vendor and storing them all per day transections. The central concept of application the customer to shop virtually by using the internet and allow the customer to buy the required items easily.

**Undertaken by:**

Syeda Mubashra Naqvi

**Supervised by:**

Miss Emmen Farooq

**Starting Date:**

March, 2015

**Completion Date:**

January, 2016

**Tools Used:**

Adobe dream viewer, PHP storm, xamp,

 **Abstract:**

The Internet is very important part of our lives. We can communicate with friends and colleagues gather news, and share information and resources from this platform. Keeping this in mind I'm going to develop a web based online shopping system, it will be very interactive and user friendly. From this platform customer can buy the products of their own choice.
