## **Dedication**

We dedicate our dissertation work to our family and friends. A special feeling of gratitude to our loving parents, whose words of encouragement and push for tenacity ring in our ears. We also dedicate this dissertation to our many friends who have supported us throughout the process. We will always appreciate all they have done; especially for helping us in develop our technological skills.

## **Acknowledgment**

We wish to thank our committee members who were more than generous with their expertise and precious time. A special thanks to Ms. Madiha Javeed, our advisor for her countless hours of reflecting, reading, encouraging, and most of all patience throughout the entire process. Thank you, Ms. Ayesha Khan for agreeing to serve on our committee. We would like to acknowledge and thank our university division for allowing us to conduct our project and providing any assistance requested. Special thanks go to our teachers for their continued support. Finally, we would like to thank the mentor-teachers and administrators in our university who assisted us with this project. Their excitement and willingness to provide feedback made the completion of this project an enjoyable experience.

## 1.1 Project Overview

Students after passing intermediate exams are always very keen for their future. They always want to join the best institute for their further education and career. In our final year project, we are trying to help them in their future decision of university selection for engineering field. We will do this by creating android application, which will include information about all universities in Lahore.

Major feature of this application are as following:

- Universities Rankings
- Admission criteria of universities
- Criteria for scholarships of each university
- Required percentage for each program in the university
- Suggestions about universities according to student's percentage
- Programs offered by different universities
- Profile of each University (website)

Following are the sample artifacts for this section:

- Problems or Overview Statement
- Customer
- Goals
- System functions
- System attributes
