Acknowledgement

First and foremost, I would like to thank Allah Almighty for giving me the courage and strength to write this research thesis.

With deep gratitude I would like to thank my supervisor, Sir Wasif Ali Waseer for his patience, continuous encouragement and steady guidance which he rendered to complete this thesis on time. His support enabled me to overcome setbacks and stay focused.

I am especially thankful to Dr. Akhtar Hussain Sandhu, Professor of History who guided me and proved a source of inspiration. Without his efforts, motivation and excellent research guidance the completion of this thesis was not possible. I would like to thank my parents and my all teachers for supporting me during this research.

I am thankful to all the scholars and friends like, Ammar Shahid, Zohra Ch, Maheen Amir, etc. I am grateful to all who helped me in the collection of data and completing this research.

Muhammad Ayyaz Mahmood

DEDICATION

This MPhil thesis is dedicated to my beloved parents and teachers.

Chapter no 1

Role of water controlling authorities of Lahore: Regarding water scarcity in Lahore city'

Introduction

Water is one of the most essential substance which play a prime importance for the survival of human beings as well as other creatures on earth. As earth's surface is covered by two-third of water and human body is consisting of 75%of it, thus it has utmost importance in everyone's life. Without water, we can't survive but due to increasing demands and changing dynamics. It is going to become scarce in near future. The water resources are depleting due to plethora of factors as; population growth, urbanization, industrialization and poor management.
