

# **Final Year Project Report**

**Project Advisor:  
Sir Abu Bakar Siddique**

**Co-Supervisor:  
Sir Muhammad Asif Subhani**

Submitted By:

Asim Khan      111820081

Nauman Shahid 111820172

B.S. Computer Science  
Department of Computer Science SST

**Session: 2011-2015**

**University of Management and Technology**

**C-II Johar Town Lahore Pakistan**

## **Dedication**

First and foremost, our group would like to dedicate this final year project we have done to Almighty ALLAH, for the strength and knowledge He gave us to do this project.

We also like to offer this project to our families, particularly to our parents, who had guided us and gave their love and support as we do this project. We also like to dedicate this project to our teachers who gave us their support in making this project.

Last but not least, we dedicate this project to our beloved university, University Of Management And Technology, and we sincerely offer this thesis to serve as the legacy we will leave to our university.

## Final Approval

### Panel of Examiners

1) **Head of Department**  
Department of Computer Science  
UMT Lahore

---

2) **Program Director ( Final Year Projects)**  
Department of Computer Science  
UMT Lahore

---

3) **Supervisor**  
Department of Computer Science  
UMT Lahore

---

4) **Co-Supervisor**

---

## **Acknowledgment**

First of all we are grateful to Allah who gives us sound mind and sound health to accomplish our final year project. The completion of this task gives us much pleasure.

We would like to thank all the wonderful people whose support and encouragement made this project a possibility. We would like to especially thank our FYP supervisors, Sir Abubakar Siddique who gave us continuous guidance, assistance, and inspiration to continue efficiently working on our project and obtain promising results.

Last but not least, we would like to present a special thanks to our families, for their love, understanding, encouragement, and confidence in us

# 1. INTRODUCTION

---

## 1.1 Project Overview

Tangle wizard is a CMS developed for a specific audience. This audience include bloggers and e commerce shop owners. The idea of this project is populated because we felt need of a CMS which caters the problem of these two stack holders of the internet world.

Currently we have a very large number of content management systems available in the market but none of them is providing a solution for a specific domain like blogging and e shops. The purpose of this project is to allow non-technical people create their blog or shop with no technical skills or without any help of a technical resource.

- a) Create Shop
- b) Create Blog
