Adnan Ashraf 111820040

Abdul Qadeer111820015

Session

Fall 2014&Spring 2015

University of Management and Technology

C-II Johar Town Lahore Pakistan

Dedication

This project is dedicated to Nation. It is also dedicated to my Teachers and Parents, who taught me that even the largest tasks can be accomplished if it is done in one step at a time.

Final Approval

Panel of Examiners

- 1) **Head of Department**
Department of Computer Science
UMT Lahore _____

- 2) **Program Director (Final Year Projects)**
Department of Computer Science
UMT Lahore _____

- 3) **Supervisor**
Department of Computer Science
UMT Lahore _____

- 4) **Co-Supervisor**

- 5) **External Examiner**

- 6) **Controller of Examinations**

Acknowledgment

I am highly appreciative to my entire team of faculty of University of management and technology and specially Ms. Emmen Farooq (our advisor) my friends and fellows for their guidance and constant supervision as well as for providing necessary information regarding the project & also for their support in completing the project.

Project Title National 1122 Tablet

Objective Rescue 1122 despatcher System Controller provide the emergency desired location with out any voice call or message to rescue van driver . Rescue van driver easily reached on that location with the help of that information.

Undertaken by Adeel Sajjad

Adnan Ashraf

Abdul Qadeer

Supervised by Emman Farooq

Starting Date November 2014

Completion Date July 2015

Tools Used Android Studio, Dream viewer, Java, PHP, HTML5, xml, CSS3 and Google Play Service.

Operating System Microsoft Windows 10

Documentation on National 1122 Tablet

Abstract

The biggest challenge to develop this project will be coming up with a good design including an efficient, fast and friendly user interface. A good design early on will make the development process easier by allowing team members to be assigned well defined areas of responsibility. Reduced coupling in the design will allow for better software verification, and also improve flexibility in case implementation has to be modified at a later stage. We will be designing a new platform for UMT students, Faculty and Alumni to read and publish their research papers and create their own journal for zero cost.
