## ABSTRACT

---

In modern era, every parent wants their children to be well educated. This web portal is going to become a bridge between parents, teachers and educational institutions. This document contains information about Find Educators. This is a web portal for teachers, parents and educational institutions. All of them can register themselves and can use different functionalities. i.e. Teacher can register in portal and select their subjects, portal can take their tests accordingly. Institutions are able to post jobs and find the best teacher for them. Parents are able to find best home tutors for their children. Portal is going to provide much needed bridge between these three entities. This document has information about stack holders, domain analysis, functional and non-functional requirements, UML diagrams for better understandings and details about database and implementation of the system.

## 1.0 INTRODUCTION

---

This is online portal for educated, skilled people and parents who want a best educator for their children. In current situation according to the economic survey 2015 of Pakistan, unemployment rate is 6% [1]. This means that there are lots of educated youth, who are looking for opportunities in different sectors to meet their financial needs. This online portal is going to help them to find home tuitions, and jobs in different educational institutes on the basis of their eligibility; It is going to help educational institutes to find teachers who are qualified in our tests (this portal is going to gauge a person through different tests of different grades of different subjects), and meet their requirements. It can help candidates to measure their skills on different subject. This portal also helps parents to find the qualified teacher for their children on the basis of ratings and feedbacks given by the other parents and students.
