Acknowledgment

In the name of Allah, the Most Beneficent, the Most Merciful. First of all we thanks Allah for giving us the hope and power to accomplish this task which we have selected as our final year project. We seek His blessings in every aspect. Without Him we were unable to complete our FYP.

We would like to thank our parents who created a hope in us to become something in life. It's all because of their prayers that we have achieved our goal.

We would also like to express gratitude to our supervisor, Miss Emmen Farooq for providing us with proper guidelines and details that were necessary for the completion of our project. She was very kind to us in this phase.

At the end we thank all our colleagues and friends who encouraged us and helped us to achieve the goal. They have supported us and helped us during work.

Every day we go out and spend our day in doing the activities we are assigned to, whether you are a student, an employee of any firm in any domain or anyone else on this planet earth. Things around you change your mood from happy to sad or happy to exhaustive and you need something to cheer yourself up. Psychologically the people around you or close to you affect your mood. For that we are going to provide you a platform called "Moodeee!" it is also proven that music does have a pleasant effect on one's mood.

~~Every day we go out spending our day in doing the activities we are assigned to whether you are a student, an employee of any firm in any domain or anyone else on this planet earth. Things around you change your mood from happy to sad or happy to exhaust and you need something to cheer you up. Psychologically the people around you or close to you affect your mood. With all these social networks around sometimes we still feel alone and we need someone to cherish. For that we are going to provide you a platform called "Moodeee!".~~ Psychologically it is also proven that music does have a pleasant effect on your mood.
