ACKNOWLEDGMENT

I would like to thank **ALLAH** Almighty who gives me courage and helps me to complete my project.

I truly acknowledge the cooperation of my project advisor **Sir. Imran Saleem**. He has been a constant source of guidance throughout the course of this project. I would also like to thank Head of department **Sir KhurramKhan** for his help and guidance in this project.

I also thankful to my family their silent support led me to complete this project.

GRATITUDE TO ALLAH

In the name of thy Lord who created, created man from clot and thy Lord is the most beautiful, who taught man what he knew nothing.

Above we indebt to 'ALLAH' Lord of our life and everything in the universe and Holly Prophet Muhammad (P.B.U.H) whose blessing enable us to receive and pursuit higher ideas of life and whose footstep lead us to right direction. I pay my special gratitude to Allah Almighty who is the sole owner of this universe and help me whenever I prayed for his assistance. I have no words to express my deepest feelings of gratitude to Almighty, Compassionate and Supreme Allah. Although the element of luck cannot be ruled out, but Allah provided me the faith and determination to grasp the opportunities for the completion of a successful project.

ABSTRACT

With the development of information technology, the internet rapidly steals into our daily life, which brings profound changes to each industry. Even the insurance sector, regarded as “the last sleeping giant” in financial industry, is getting rid of the bondage of its complicated rules and regulations, and increasingly involved in a new revolution. Websites providing insurance consulting and doing policy sales spring up in western countries in recent years. With more and more citizens buying insurance and more and more insurance companies conducting their business online, online insurance will become a future trend in the insurance market. This will also help company to come up with strategies that will retain and attract customers because customers want to be happy and a good service is equal to happy customers.

Insurance company provide the manual, registration and service which is difficult to handle for company staff and also difficult to access for customers. Online Insurance is easy to handle for staff and provide the easy access for the customers. In this system staff has no tension to manage the bundle of customer’s information and allowing them to access.

In nut shell it will be prove efficient, time saving and good solution for the Insurance system. Every exchange(s) implement own online Insurance system.
