ACKNOWLEDGEMENT

“The completion of this undertaking could not have been possible without the participation and assistance of so many people whose names may not all be enumerated. Their contributions are sincerely appreciated and gratefully acknowledged. However, the group would like to express their deep appreciation and indebtedness particularly to the following:

Mr. Asif Subhani and Sir AbuBakar Siddique for their endless support, kind and understanding spirit during our project presentation.

To all relatives, friends and others who in one way or another shared their support, either morally, financially and physically, thank you.

Above all, to the Great Almighty, the author of knowledge and wisdom, for his countless love”.

We thank you.

Abstract

In our daily life there are many different types of HR(Human resource) management system are present for managing HR department like employee management products and many more. Rozee. pk etc. are already present, so why needed the BestHR system. Our project of WebHR system manage and create employees and create different users with desired roles and recruit within few seconds on some clicks using BestHR web application. In past all works is done on paper and all tasks are manual but BestHR system overcome manual work save paper, time and employee cost and recruitment procedure on fully merit based. Manual recruitment procedure and time consuming system becomes an absurdity of the past. Shortlist and screening automatically done within one or two clicks and save employee data with joining date and time send to the database. This application is for HR Department of every organization.

1. INTRODUCTION

1.1 Project Overview

BestHR Web Application is an application developed for providing assistance to HR manager of any organization. This system will overcome use of paper, save time, secure and manage data of employee efficiently.

Problem Statement

Human Resource Department is mandatory part of every organization and they use different methods to manage data related recruitment. Communication Barrier Between departments, Employee payrolls, Timesheet, attendance and reports for high authority. There are lot of use of papers, time consuming and employee cost and there maintenance. Employees were managing manually. These are some problems that HR Department faces in every Organization.
