ABSTRACT

The purpose of this project is to conduct community based research to explore the articulation between deaf, hard of hearing students can be enhanced using a proper deaf space. The bilingual school will not be just a traditional school. it will provide multi-opportunities for them to become something in their life.

ACKNOWLEDGMENT

First and the foremost, I wish to express my deepest appreciation to my project supervisors Ar. Najam-ul-haq, AR, Memoona Rasheed, Dr Saima Gulzar and Dr, Yousaf awan for the continuous support in my final year project, for their patience, motivation, enthusiasm and immense knowledge. Their guidance helped me all the time in the final year project and the writing of this thesis. Without their help this project would not have been completed. Most importantly, none of this could have happened without my family.my mother, who encourages me at every step where I was ready to quit, she has been kind and supportive to me over the last several years. Today I am here just because of her and my teachers and I will be thankful to them for their support.

CHAPTER 1

INTRODUCTION OF THE PROJECT

1.1 PROJECT TITLE:

CANCER HOSPITAL

MEDWIN CARES AND RESEARCH CENTER.

1.2 INTRODUCTION AND BACKGROUND:

Basically that thesis is established to fulfill the need of south Punjab peoples. Because they are suffering the problem of hospital. In south Punjab there is no well know hospital and also have a problem with the infrastructure and system. According the need of people we should try to build an international hospital which is fulfill the all requirement of the people. Cancer hospital in Bahawalpur to facilitate the people and make them able to aware this deadly disease. This hospital is also provide the facility of research to newcomer doctors. Research center is also established according to international standards.

1.3 AIMS & OBJECTIVE:

Health is wealth if people is not well he is not able to do anything. In large cities like Lahore , Karachi etc. people are somehow aware of these about these dangerous diseases but in a small cities
