## 1.1 Project Overview

The main perspective of our website is to bring the real estate industry online and allow individuals and businesses in this industry to benefit from the internet. Our website will allow users to advertise their properties and search for properties posted by other users.

Our website will provide a new and preferred approach to our users to list their properties and search properties for buying, selling or renting.

We promise to provide real estate services which will help our users in making a wise decisions in buying, selling or renting properties.

Users can search properties with different inputs. For example, by number of bed rooms, Wash rooms, city, type, area, price range etc. As the inputs are entered by the user on our website the user then only needs to click the SEARCH button and all the search related advertisements will be shown on the screen.

We make it fast, simple, easy and accurate to find your desired property. We will maintain a good relationship with our users and will give our best to provide the best online real estate service.
